A concentration in accounting aims to prepare the graduate for entry into public or private firms and is one of the most critical areas of management. Accounting is an exciting field that requires people with sound technical knowledge, critical thinking skills, superior interpersonal skills, and the ability to communicate effectively. Accountants hold senior management positions in private companies in business or industry, public accounting firms, and government agencies.

To prepare for an accounting career, students take courses in financial reporting and managerial accounting, with additional elective courses available for more specialized studies in strategic cost analysis, auditing and other assurance services, income tax planning, and accounting information systems.

BSBA—Bachelor of Science in Business Administration with Concentration in Accounting

BUSINESS CORE REQUIREMENTS

Mathematics
Complete one calculus course from the following list:
MATH 1231 Calculus for Business and Economics 4 SH
